

Growthgroups

equipping small group leaders

This four part seminar is designed for those who are interested in leading, co-leading, or hosting a small group. Upon completion participants will be equipped to launch their own small group. No prior small group experience is needed. This very practical seminar covers the basics such as:

- how to invite people to join your group,
- using Bible based curriculum,
- how to stay outwardly focused,
- what to do if divisive doctrinal issues come up,
- how to get 'buy in' for basic ground rules.

Each participant will receive an executive summary workbook with notes for future reference including outlines for their first eleven meetings.
